

BUY DUNLOP TYRES

because

they are the best tyres made. They last longer, and are safer than any other tyres. They are cheaper to use because they give longer mileage at lower cost-per-mile. Their original cost is no higher than that of ordinary tyres—and last but not least, they are made in a British Factory by skilled British workmen and so help to keep employment in this country.

When you buy a Foreign Tyre you deprive
a fellow-countryman of a day's work—a
point worthy of your consideration.

Be sure your tyres are British.

fit Dunlop and be satisfied
